## AIM AND SCOPE

The Symposium is established to disseminate significant research results, technical and methodological applications, case studies, and surveys concerned with the main and subsequent topics. The Symposium is intended to bring together, in one place, developments of interest to both researchers and practitioners, so that participants may have the opportunity to know more about research activities on national and international level.

We are very pleased to cordially invite all the scientists, researchers, managers, engineers and Ph.D. students to actively participate at "**UNIVERSITARIA SIMPRO 2016**" and to give their scientific contribution to the success of this scientific event with the theme „**Sustainable Development through Quality and Innovation in Engineering and Research**”! It will be an outstanding opportunity to meet and exchange new ideas, to have fruitful and interesting professional discussions besides getting in touch with an old mining town, placed in the picturesque Jiu Valley. We hope that we will turn our meeting into a remarkable scientific success, which will enrich our professional expertise and will bring us wonderful remembrances.

## TOPICS OF INTEREST

The Symposium will be held under the theme of „*Sustainable Development through Quality and Innovation in Engineering and Research*” and would strive to maintain a balance between research and applications. Topics include, but are not limited to the following:

- 1. Advances in safety science and environmental engineering**
- 2. Sustainable mining engineering and surveying**
- 3. Challenges in geology, rock mechanics, geotechnics and geotechnical applications**
- 4. Achievements in electrical engineering and energetics**
- 5. Development and innovation in system control and computer engineering**
- 6. Industrial and mechanical engineering and transportation**
- 7. Applied mathematics, informatics and physics**
- 8. Improvements in business, economics and public administration**
- 9. Quality concerns for management and marketing**
- 10. Social sciences and Humanities: Social sciences and Humanities (Social Work, Sociology, Languages)**
- 11. Education engineering, pedagogy, sustainable development and interdisciplinary studies**

## PAPER SUBMISSION AND PUBLICATION

SIMPRO 2016 especially encourages submissions on innovative and visionary new concepts or directions.

The papers should be the written **in English**. Contributions to SIMPRO 2016 should include only original, unpublished papers. The length of any papers is recommended to be 4 or 6 pages and it should not exceed 6 pages. All the submitted papers **MUST** be prepared with the SIMPRO 2016 paper template, and the papers **MUST** be submitted electronically in PDF format via the EasyChair submission site. **A Word "doc" version will be sent to [simpro@upet.ro](mailto:simpro@upet.ro)** , also until 01 September 2016.

**IMPORTANT:** Accepted papers will be published in the Symposium e-Proceedings with ISSN and **100 (one hundred) selected papers in a dedicated issue from January 2017 of the SCOPUS indexed journal „Quality-Access to success”** (also indexed in EBSCO, CABELL’S and PROQUEST databases). The articles exceeding the previously mentioned number of 100, will still be published in the **Annals of the University of Petrosani Series** and **Mining Revue Journal**, both of them indexed in acknowledged international databases (SCIPIO; RePEc; EconPapers; IDEAS; D.O.A.J.; EBSCO Publishing Inc.; Cabell’s; IndexCopernicus Journals Master List; ICAAP; SOCIONET; Genamics JournalSeek; Electronic Journals Index (SJSU); Academic Journals Database; EuroInternet (The World Wide Web Virtual Library for European Integration); PROQUEST, CABELL’S.)

**VENUE**

City of Petroșani is placed in southern part of Hunedoara county, at 330 km far away from Bucharest. It has about 42,700 inhabitants and it is placed at altitude of 620 m, in the most important hardcoal basin from Romania, where the mining activity began in 1840. The closest national airports are at Timisoara and Sibiu.
